Water Pollution Enforcement issued two separate consent orders against the same owners/operators of a dairy farm and a swine farm, both located in Newberry County. The consent orders included civil penalties totaling \$15,400.00, in part, for discharging partially treated wastewater into the environment. The Respondents are currently in compliance with the requirements of the consent orders, which require the Respondents to implement corrective action to prevent future unauthorized discharges.

Of the thirty-seven (37) administrative and consent orders issued by EQC enforcement programs during the reporting period, the enforcement programs report, to date, that twenty-four (24) Respondents have either complied with all requirements of the orders or are currently in compliance with schedules required in those orders.
